- **Programming:** Java, C, JavaScript
- **Web Development:** HTML, CSS, JavaScript
- **Full Stack:** MERN Stack (MongoDB, Express.js, React.js, Node.js)
- **Databases:** MySQL, MongoDB
- **Concepts:** Data Structures, Algorithms, OOP
- **Tools:** Git, GitHub, VS Code

Projects

EduSkill – AI Assisted Learning Platform

- Developed an AI-assisted platform to help students improve technical skills.
- Integrated AI tools to generate explanations and structured learning resources.
- Designed to improve accessibility of learning material for students.

Secure System – Authentication and Security Application

- Built a secure authentication system with user login and management features.
- Implemented password hashing and secure login practices.
- Demonstrated cybersecurity fundamentals in web applications.

MERN Blog Platform

- Built a full-stack blog application using MongoDB, Express.js, React.js and Node.js.
- Implemented REST APIs for creating, editing and deleting blog posts.
- Integrated frontend and backend with authentication and database storage.

Competitive Programming

- Active problem solver on LeetCode practicing Data Structures and Algorithms.
- Solved problems on arrays, strings, linked lists, recursion and trees.

Achievements

- CGPA 8.24 in B.Tech Information Technology.
- Strong academic performance with 94.9% in Intermediate and 100% in SSC.

Soft Skills

- Communication and Interpersonal Skills
- Analytical and Problem Solving
- Team Collaboration
